Rome Black

Rome black smells like history. It brings to mind the "Eternal City" the bravery of ancient Romans and spirit of gladiators. Rome is the very essence of men's fragrance, the combination of strength and hardness hidden within the black wood. and delicacy enchanted in the breath of jasmine.

Sydney Dream

Sydney dream is an aroma as unforgettable as the love. As radiant as morning dew on jasmine petals, as alluring as a May wreath, as subtle as a whisper of love. **Sydney** emanates light, freshness and feminine energy.

World Rainbow

World rainbow is a scent of masculine adventure in the middle of a wild nature. Inspired by adrenaline released by cave diving and cliff jumping. The scent full of danger hidden in the unknown and all the risk taken during discovering the world.

Paris Love

Paris love is an exclusive fragrance that rekindles the memory of romantic walks through the streets of the French fashion capital. It is marriage between the delicacy of rose petals and intensity of saffron, with the depth of vanilla. We encapsulated luxury in **AF Paris**.

London Adventure

London adventure is a fragrance with a unique aroma which will accompany you throughout the day. The notes of wood give it a unique character which symbolizes strength, perseverance and courage. The whole is reflection of the quintessence of travelling deep in to the nature.

Black Wood

Black Wood is a creator of true art, a unique moment in which we know what we live for. The combination of distinct and bold aroma of jasmine with a hint of hot fire up creativity, and the delicatenote of leaves of violet and fresh sage are subtly stimulating, giving the whole a youthful breeze. The aroma of jasmine has relaxing effect on all the sense, while the wood scent makes you feel blissful.
